

WANT TO BECOME A SMARTICIPATER?

WHO IS IT FOR?

- > **Citizens**_ to actively propose urban projects for a better neighbourhood
- > **Entrepreneurs**_ to get alerted about new development possibilities and to more easily access feedback from the locals
- > **City administrations**_ to leverage the creativity of their citizens and foster greater levels of local engagement

WHAT MAKES SMARTICIPATE UNIQUE?

- > smarticipate makes proposed urban planning changes visible and provides instant feedback on these ideas
- > smarticipate transforms open data into understandable information
- > smarticipate empowers governments, NGOs, businesses and citizens to develop new tools and generate New Public Services

“smarticipate enables a two-way feedback mechanism incorporating citizens feedback and making cities more democratic and dynamic.”

Try it out

Visit the website

1_Platform

The **smarticipate platform** is offered as a generic platform, including a test version with the already developed smarticipate apps. From there, you can:

- a) Implement one of the already developed apps
- b) Adjust one of the existing apps
- c) Create a new app based on the smarticipate platform

Installation fee: €17,000 (first year)

Annual platform license: €12,000 (after first year)

2_Services

You can purchase **additional services** on top of the generic platform. Service packages are available upon request.

Service 1: Consultation

Service 2: Data preparation

Service 3: Rule definition

Service 4: Front-end adaptation

Service 5: Back-end adaptation

3_Apps

With the purchase of the generic smarticipate platform, you get the rights to **develop and plug-in additional apps**.

The **app fee** is dependent on the size of the city and starts from €49.

Deployment

Choose the operation model that fits your needs: Cloud infrastructure or private server environment.
